SUMMARY

Civic innovation and program strategy professional with 7+ years of experience across government, nonprofit, university, and consulting settings in the United States and India. Leads concurrent public-impact projects from sponsor discovery and project scoping through stakeholder coordination, implementation planning, delivery, and reporting. Experience spans community development and housing, public-sector modernization, energy and climate strategy, and program evaluation.

EDUCATION

Master of Public Affairs, Policy Analysis and Sustainability,
Indiana University O'Neill School of Public and Environmental Affairs
05/2025 | Bloomington, IN

Master of Public Affairs, Policy Analysis and Sustainability,
Gokhale Institute of Politics and Economics
05/2018 | Pune, India

Bachelor of Management Studies, Finance,
University of Delhi
05/2016 | Delhi, India

EXPERIENCE

Innovation Fellow, *enFocus Inc.*

01/2026 – Present | South Bend, IN

- Lead development of a countywide housing and community-development strategy for Marshall County, coordinating municipalities, community organizations, and regional partners to convert housing and infrastructure needs into strategic priorities, scoped initiatives, resource pathways, and an implementation roadmap.
- Direct six simultaneous workstreams, encompassing strategic planning, organizational mission and values formulation, housing prioritization in Plymouth, and La Paz water infrastructure development; coordinate municipal partner engagement and maintain comprehensive project governance tools, including decision logs and narrative reporting, to ensure operational clarity.
- Build a four-page public-facing budget dashboard for the City of South Bend in Power BI, integrating multiple financial-data sources and producing a data dictionary and maintenance documentation to support budget transparency and future departmental use.
- Develop WCAG 2.1 AA-based accessibility guidance and standard operating procedures for ArcGIS applications and other public-facing digital tools, giving city staff repeatable review and maintenance workflows.

Policy Research Consultant, Energy Strategy, *Independent Consulting*

09/2024 – 06/2026 | Remote

- Delivered two project-based evaluations of New Jersey's energy transition for the Garden State Initiative and Gnarly Tree Sustainability Institute, culminating in a 2026 reassessment of the state's 2024 Energy Master Plan focused on affordability, reliability, grid readiness, and transition sequencing.
- Integrated federal and state data from EIA, NREL, DOE, PJM, and New Jersey agencies with cost and resource-adequacy evidence to assess electricity-demand growth, resource retirements, renewable integration, storage limitations, ratepayer impacts, and implementation risks.
- Developed readiness benchmarks, cost-transparency recommendations, and an actionable transition framework emphasizing that dependable resources should remain available until replacements are operational, interconnected, accredited, reliable, and affordable.

Research Assistant, *Indiana University O'Neill School / Energy Justice Lab*

07/2025 – 12/2025 | Bloomington, IN

- Supported a meta-analysis examining disparities in U.S. environmental law enforcement under major federal statutes, screening and classifying 825 research records to establish a rigorous evidence base for analysis.
- Conducted a 50-state review of utility-disconnection protections and helped structure a 68-field policy database for the Energy Justice Lab's national dashboard.
- Synthesized statutes, regulations, administrative materials, and scholarly evidence into standardized research products that enable cross-state comparison, policy analysis, and future dashboard maintenance.

PROFESSIONAL SKILLS

Project and Program Delivery

Project scoping, work planning, stakeholder facilitation, sponsor communications, cross-functional coordination, meeting facilitation, implementation planning, project tracking, progress reporting, budget tracking, and governance documentation.

Policy and Research

Policy analysis, program evaluation, regulatory research, mixed methods research, survey design, literature synthesis, technical writing, community engagement, and data-informed decision-making.

Technology

Power BI, Tableau, ArcGIS, Advanced Excel, Google Sheets, R, Python, Stata, and Microsoft PowerPoint.

ADDITIONAL INFORMATION

Fellowships

McKinney Climate Fellow, 2024; Environmental Justice Fellow, 2024-2025; Paul H. O'Neill School Fellow, 2024-2025.

Selected Reports

Reliability Before Retirement: Reassessing New Jersey's 2024 Energy Master Plan (2026); Evaluating New Jersey's 2019 Energy Master Plan (2025); Bloomington HeatWatch Report (2024); 2024 Bloomington Community Heat Survey Summary (2024).

Graduate Teaching Assistant, *Indiana University Bloomington*

08/2023 – 05/2025 | Bloomington, IN

- Supported more than 400 undergraduate students across five public-affairs courses through office hours, one-on-one instruction, and evidence-based teaching strategies that strengthened comprehension and analytical skills.
- Coordinated grading, student projects, submission workflows, and course operations across multiple faculty-led classes, maintaining reliable delivery and timely feedback.

McKinney Climate Fellow, *City of Bloomington*

05/2024 – 12/2024 | Bloomington, IN

- Led Bloomington's HeatWatch initiative with NOAA and CAPA Strategies, coordinating logistics, mapping data-collection routes, managing equipment, training more than 60 volunteers, and delivering a citywide urban-heat map used in infrastructure planning and published by the city.
- Designed and executed a community heat survey across 64 neighborhoods, translating resident and spatial evidence into findings that informed Bloomington's Extreme Heat Action Plan and updates to the city's Climate Resilience Plan.
- Tracked project expenditures against approved budgets, documented in-kind contributions, compiled receipts, and supported partner closeout reporting for grant-funded heat initiatives.

Associate – Research | Growth and Marketing, *REA India / Housing.com*

02/2023 – 08/2023 | Gurugram, India

- Produced quarterly Real Insight residential-market reports by analyzing surveys, housing trends, buyer behavior, and policy developments, providing Housing.com audiences with data-informed industry insights.
- Built automated Tableau dashboards that improved internal access to market data and supported recurring analysis and stakeholder decision-making.

Sub Inspector, *Government of Jammu & Kashmir, State Taxes Department*

11/2021 – 02/2023 | Srinagar, India

- Managed the end-to-end GST administration lifecycle for an assigned portfolio of firms, including audits, returns verification, reimbursements, inspections, and small-industry compliance.
- Applied regulatory and enforcement procedures to strengthen adherence, resolve compliance issues, and support public-revenue collection.

Field Investigator, *Central University of Jammu*

05/2021 – 09/2021 | Jammu, India

Executed household sampling and field-data collection covering 2,400 households across Jammu and Ladakh for a NITI Aayog thematic study, synthesizing field observations into detailed research reports.

Consultant, *Gokhale Institute of Politics and Economics*

02/2020 – 07/2020 | Pune, India

Analyzed Census of India and National Family Health Survey data for an Indian Council of Social Science Research project on demographic and socioeconomic disparities, co-authoring background papers and an interim report.

Research Assistant – Monitoring and Evaluation,

Indian Development Foundation / UNDP Disha

07/2019 – 12/2019 | Gurugram, India

- Monitored key performance indicators for 120 pilot projects supporting women's entrepreneurship, combining field and management-information-system data into progress reports used to assess implementation and outcomes.
- Designed survey instruments and conducted individual interviews, key-informant interviews, and focus groups to generate quantitative and qualitative evidence about program delivery.

Academic Assistant, *Indian Institute of Management Udaipur*

09/2018 – 06/2019 | Udaipur, India

Supported faculty teaching and research through remedial macroeconomics instruction, one-on-one tutoring, literature reviews, data collection, statistical analysis, mathematical modeling, instructional-material development, and LaTeX-based research outputs.
